

DOMAINE DE LA ROCHETTE

Neuchâtel Vieilles Vignes

Situated between the Alps and the Jura Mountains, Neuchâtel is underpinned by the same band of Jurassic limestone that is present in Burgundy and the Jura. Compressed and folded by the geologic process that built the surrounding mountains, then ground smooth by glaciers that also formed the region's three lakes - Neuchâtel, Biel and Murten - Neuchâtel lacks the dramatic vistas of the Valais or the grandeur of Lavaux. The drama of Neuchâtel is subterranean. The vineyards of the region are located on the southeastern-facing slopes above the three lakes where the top soils are thinner and the limestone is closer to the surface. These are the precise ingredients for making incredibly detailed, precise and ageworthy Pinot Noir.

Outside of Switzerland, few are aware of this hidden terroir and if Jacques Tatasciore has his way this will remain so. After leaving the world of business, he settled in Cressier and began to assemble a selection of top sites in Neuchâtel. There is no tasting room, no sign, and visitors are discouraged. Jacques is frequently awarded top honors in Switzerland for his wines, but he never attends the ceremonies - all his energy goes into his wines. Production is tiny, selection is painfully strict, allocations are jealously guarded and details are scarce. The wines speak for themselves.

When Jacques Tatasciore purchased the historic Domaine de la Rochette in 1999 there were only 2 hectares of vines that we're still part of the property. Over the years he's expanded his holdings to 6 hectares including vines in three vineyards in Cressier considered to be Grand Cru sites: Les Rissieux, Les Margiles & Les Chanez. His village wine, called simply Vieilles Vignes comes from about 8 sites in the hills above Cressier and from vines between 30-70 years old and grown of clay and limestone soils.
