

ENCLOS DE PERALBA

Tres Feixes

L'Enclòs de Peralba was started in 2017 by cousins Leo and Roc Gramona of the renowned Penedès sparkling wine dynasty. The project is named after the stony white calcareous soils of the Sant Sadurní hills in Alt Penedès, where the winery is located. Leo and Roc have sought out plots owned by experienced old farmers whose knowledge and skill were in danger of dying out. These are growers who not only preserve the indigenous varieties of the Penedès but share their desire to work sustainably.

The Penedès is a large region with a wide variety of terroirs, from the Mediterranean coastal vineyards in the south, to the steep slopes of the valley of Montserrat in the north. Soils range from stony calcareous clay to slate, so their focus is on making single-parcel wines with local grape varieties, which express the microclimate and terroir of each plot, aiming to present the “distinctive flavor of their landscape.” They build on this by working with minimal intervention in their small cellar. They vinify each parcel separately and age it in either barrel or concrete tanks before bottling. The wines show clarity and purity uncommon in such young winemakers and are a refreshing addition to the region’s offerings and our portfolio.

Tres Feixes is sourced from a 0.72 ha vineyard of 80-year-old Garnatxa Blanca farmed organically by Sergi Molinari. Located in the village of Guinovarda, this site is part of El Pla de Manlleu, a high elevation plateau in Penedès known for its precisely mineral and vibrant white wines.

ORIGIN

Spain

APPELLATION

Vino Varietal de España

SOIL

Clay-limestone

AGE OF VINES

80

ELEVATION

550 meters

VARIETIES

Garnatxa Blanca

FARMING

Sustainable

FERMENTATION

Hand harvested, macerated several hours before pressing, natural yeast fermentation, fermentation finishes in a 660L cement eggs and a 500L French oak barrel, daily bâtonnage

AGING

9 months in two 660L cement eggs, and 1 500L French oak barrel
